

Feedlot Finisher Pellets

Providing energy and protein for growth and fattening

Available in:

Suitable for:

Mi-Feed is supported by leading animal scientists supplying you with a quality product to ensure best possible productivity and profit from your Beef Cattle. Feedlot Finisher Pellets has been formulated for growing cattle, providing energy and protein for growth and fattening.

Ingredients:

Mi-Feed focuses on providing premium balanced products covering each animal's nutritional requirements to the highest standards. Feedlot Finisher Pellets include cereal grains (barley, sorghum, wheat), millrun, barley malt combings, soy bean meal, sodium bentonite, sodium bicarbonate, limestone, di-calcium phosphate, salt and a specialized mineral and vitamin premix.

Veterinary Chemicals:

Lasolocid Sodium is included at a rate of 33 mg/kg

Nutrient Analysis:

Crude Protein (min)	14%	Calcium (min)	1.0%
Metabolisable Energy	11MJ/kg	Phosphorus (min)	0.5%
Crude Fibre (max)	5%	Copper	8mg/kg
Salt (max)	1.0%	Selenium	0.1mg/kg

Medicinal Claim:

Lasolocid sodium is added to improve live weight gains and feed conversion efficiency in growing cattle.

To help control the clinical signs of coccidiosis and reduction of faecal shedding caused by *Eimeria sp.* in growing cattle.

Feeding guide

Mi-Feed Pellets are designed to feed up to 40% of your herd's dry matter intake on a pasture based system. We also recommend access to fresh water at all times.

Availability

Mi-Feed Products are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase on a spot basis subject to availability or enter a contract ensuring guaranteed supply.
