# **Feeding guide**

Horses in full work require on average 3kg to 6kg of Winners Edge per day, in conjunction with a minimum of 1% of body weight of good quality pasture, hay and/or chaff.

Introduce Winners Edge in to the diet slowly over 7 to 14 days.

Ensure all horses have access to clean and fresh water.

Feed Winners Edge by weight, not volume.

If feeding more than 0.5% of Winners Edge plus other grains per day, divide the total daily amount in to two or more equal feeds.

Do not add additional vitamins/minerals without veterinary consultation.

This feed is a concentrate and not recommended for horses confined to stables or not receiving regular exercise.

# **Additional notes**

This information should be used as a general guide only. Please consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material.
