Suitable for:

Proteena Golden Feed (PGF) is a high quality bulk feed alternative which helps lower feed costs in intensive sheep and lamb enterprises. PGF is a medium protein, high energy feed that can be included in dairy rations up to 25% of total dry matter intake.

Tailored Design

A specially formulated feed designed through the combined use of prebiotics and probiotics from *Saccharomyces cerevisiae* yeast and components together with high quality co-products to potentiate the rumen microbiota, strengthening the immune system and reducing pathogen contamination, while also contribute to the animal's overall health and consequently, promoting animal performance and nutritional status through synergistic effects.

PGF is an excellent forage extender, reducing the reliance on pasture or silage eg. can be used as a part pasture replacer enabling paddocks to be rested for further growth or silage production.

Sweet, palatable taste

Highly palatable to stimulate appetite for higher feed intake and consequently increased daily weight gain while also prevent the incidence of metabolic disorders.

Cereal grains cooked and subjected to steam conditioning gelatinise starch sources further to provide extra energy to ultimately improve digestion and feed conversion efficiency and live body weight gain in growing animals.

Excellent nutritional source

Made from cereal grains (including crushed maize), co-products and starches, contributing to an increased supply of Mineral and Vitamins for fibre degrading microbes to improve ruminal digestion, metabolism and improved nutrient utilization.

Feeding guide

Up to 25% of total DM intake i.e. 1.2kg DM intake = 0.8kg of PGF as fed 300g PGF on a DM basis.

PGF can be fed fresh and is recommended to be used within 14 days of delivery depending on weather conditions. It may be ensiled for longer term usage.

Availability

Castlegate James Proteena Golden Feed is available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase Proteena Golden Feed on a spot basis subject to availability, or enter a contract ensuring guaranteed supply.

Additional notes
