

Roasted Feedlot Finisher

Micronised grains allow maximum digestibility

Available in:

Mi-Feed is supported by leading animal scientists supplying you with a quality product to ensure best possible productivity and profit from your Beef Cattle. Roasted Feedlot Finisher has been formulated for growing cattle, providing energy and protein for growth and fattening.

Suitable for:

Mi Feed Roasted Feedlot Finisher is micronised for improved palatability, improved digestion, protected protein and makes the feed very safe.

What is Micronisation?

Micronisation is a process which cooks the starch in the grains thus making it more digestible for the animal. This process is called gelatinisation. The micronisation process includes firstly soaking (steaming) the grain and then passing it through high temperature infra-red burners and then finally rolling the grain.

This process which is similar but more efficient than steam flaking allows grain to remain partially intact but with a reduced density and increased intestinal digestion.

Nutrient Analysis:

Crude Protein (min)	14%	Urea (max)	1.5%
Equiv Crude Protein (max)	4%	Calcium	1.0%
Metabolisable Energy	11MJ/kg	Phosphorus (min)	0.5%
Crude Fibre (max)	5%	Copper	8mg/kg
Salt (max)	1.0%	Selenium	0.1mg/kg

Ingredients:

Mi-Feed focuses on providing premium balanced products covering each animal’s nutritional requirements to the highest standards. Roasted Feedlot Finisher includes cereal grains (barley and sorghum), soy bean meal, sodium bentonite, urea, limestone, di-calcium phosphate, salt and a specialized mineral and vitamin premix.

Veterinary Chemicals:

Lasolocid Sodium is included at a rate of 33 mg/kg

Medicinal Claim:

Lasolocid sodium is added to improve live weight gains and feed conversion efficiency in growing calves. To help control the clinical signs of coccidiosis and reduction of faecal shedding caused by *Eimeria sp.* in growing calves.

Feeding guide

Mi-Feed Pellets are designed to feed up to 40% of your herd’s dry matter intake on a pasture based system. We also recommend access to fresh water at all times.

Availability

Mi-Feed Products are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

Additional notes

This information should be used as a general guide only. Please consult with your nutritional advisor to determine the appropriate needs for you animals.

This product does not contain restricted animal material.
