Hominy Meal

AN ECONOMICAL SOURCE OF PROTEIN & METABOLISABLE ENERGY

This feed is also suitable for:

For information call Castlegate James on 03 8311 2200

Castlegate James Hominy Meal is a blend of corn bran, floury endosperm and corn germ produced during corn milling. High in ruminant Metabolisable Energy (ME); Hominy Meal is a valuable ingredient to add into dairy, beef, poultry and pig feed rations.

With the added inclusion of Rumensin and Acid Buff, Super E Pellets gives your stock everything they need for complete rumen health and offers the following benefits.

BENEFITS

Hominy Meal offers the following features and benefits:

- Extremely High in ruminant Metabolising Energy (ME) and also acts as a strong glucose precursor.
- Slower digesting starch when compared to traditional cereal grains
- Valuable source of protein

FEEDING GUIDE

Use 1-3 kilos per cow per day in dairy Total Mixed Rations. With a high fat content, Hominy Meal usage may vary according to other feeds used. Although Hominy Meal is a dry, free flowing meal, it is not suitable for storage in silos

AVAILABILITY

Hominy Meal is available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase Hominy Meal on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

QUALITY PROMISE

All Castlegate James products are manufactured in our FeedSafe® accredited mills following our stringent Quality Assurance Program. As one of Australasia's largest feed manufacturers, we ensure that all feeds manufactured and supplied by our mills are of the highest standard, exceeding the expectations of our customers, every time.
