## Super P Pellets

### ENSURING OPTIMAL MILK PRODUCTION IN DRY CONDITIONS

This feed is also suitable for:

For information call Castlegate James on 03 8311 2200

Super P Pellets are a high-protein stockfeed specifically designed to supplement dairy cattle when pasture quality is poor due to dry weather conditions. Based on Castlegate James Super E Pellets, Super P Pellets have been formulated to ensure your milk production is maintained year round.

#### BENEFITS

##### High protein content

Super P Pellets contain a raised 15% protein level especially to supplement poorer quality pastures and silage. Added Urea, a rapidly digestible Nitrogen source, matches the highly soluble sugars within the feed, therefore supplying your animals with protein and energy simultaneously, promoting greater milk production.

##### Complete nutritional source

Super P Pellets contain a full complement of macro minerals, vitamins and trace elements, as well as Rumensin®, Acid Buff®, Diamond V XPC and Biotin as standard inclusions.

##### Unique energy source blend

Starch, sugar and fat content provide a safe feed with a reduced chance of acidosis, without sacrificing live weight gain.

##### Added bypass protein

Added Canola Meal provides a good source of bypass protein to the animal.

##### Sweet, palatable taste

Encourages dry matter intake crucial to increasing milk production and live weight gain.

##### Improved utilisation

Steam conditioning of Super P pellets helps to gelatinise the starch content, therefore improving digestion and efficiency.

#### FEEDING GUIDE

Super P Pellets are designed to feed up to 40% of your animals' dry matter intake using pasture-based systems. We also strongly encourage you to ensure fresh water access at all times.

#### AVAILABILITY

Super P Pellets are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase Super P Pellets on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

#### ADDITIONAL NOTES

This information should be used as a general guide only. Please consult with your nutritional advisor to determine the appropriate needs for you animals.

**This product does not contain restricted animal material.**
