Our specially formulated Castlegate James Super E Pellets are a high-energy stockfeed perfectly suited to the dairy and feedlot industries. Super E Pellets offers your animals a unique blend of starches, sugars, fat and fibre, as well as a full complement of macro minerals, vitamins and trace elements.

With the added inclusion of Rumensin and Acid Buff, Super E Pellets gives your stock everything they need for complete rumen health and offers the following benefits.

BENEFITS

Complete nutritional source

Super E Pellets contain a full complement of macro minerals, vitamins and trace elements, as well as Rumensin®, Acid Buff®, Diamond V XPC and Biotin as standard inclusions.

Unique energy source blend

Starch, sugar and fat content provide a safe feed with a reduced chance of acidosis, without sacrificing live weight gain or milk production.

Sweet, palatable taste

Encourages dry matter intake crucial to increasing milk production and live weight gain.

High Neutral Detergent Fibre Content

Reduces acidosis and improves animal health when compared with traditional pellets.

Improved utilisation

Steam conditioning of Super E pellets helps to gelatinise the starch content, therefore improving digestion and efficiency.

Tailored design

Super E Pellets were tailored to complement grass, hay or good quality silage.

FEEDING GUIDE

Super E Pellets are designed to feed up to 40% of your animals' dry matter intake using pasture based systems. With feedlotting animals, we suggest you ensure proper transition over and extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

AVAILABILITY

Super E Pellets are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase Super E Pellets on a spot basis subject to availability, or enter a contract ensuring guaranteed supply

ADDITIONAL NOTES

This information should be used as a general guide only. Please consult with your nutritional advisor to determine the appropriate needs for you animals.

This product does not contain restricted animal material.
